The Chinese Government having (through the Hon. Anson Burlingame) conceded to this Company the privilege of connecting the great seaports of the Empire by submarine electric telegraph cable, we propose commencing operations in China, and laying down a line of nine hundred miles at once, between the following port s, viz:

	Population.
Canton	1,000,000
Macoa	60,000
Hong-Kong	250,000
Swatow	200,000
Amoy	250,000
Foo-Chow	1,250,000
Wan-Chu	300,000
Ningpo	400,000
Hang Chean	1,200,000
Shanghai	1,000,000
Total	5,910,000

These ports have a foreign commerce of $900,000,000, and an enormous domestic trade, besides which we have the immense internal commerce of the Empire, radiating from these points, through its canals and navigable rivers.

The cable being laid, this company proposes erecting land lines, and establishing a speedy and trustworthy means of communication, which must command there, as everywhere else, the communications of the Government, of business, and of social life especially in China. She has no postal system, and her only means now of communicating information is by couriers on land, and by steamers on water.

The Western World knows that China is a very large country, in the main densely peopled; but few yet realize that she contains more than a third of the human race. The latest returns made to her central authorities for taxing purposes by the local magistrate make her population *Four hundred and Fourteen millions*, and this is more likely to be under than over the actual aggregate. Nearly all of these, who are over ten years old, not only can but do read and write. Her civilization is peculiar, but her literature is as extensive as that of Europe. China is a land of teachers and traders; and the latter are exceedingly quick to avail themselves of every proffered facility for procuring early information. It is observed in California that the Chinese make great use of the telegraph, though it there transmits messages in English alone. To-day great numbers of fleet steamers are owned by Chinese merchants, and used by them exclusively for the transmission of early intelligence. If the telegraph we propose connecting all their great seaports, were now in existence, it is believed that its business would pay the cost within the first two years of its successful operation, and would steadily increase thereafter.

No enterprise commends itself as in a greater degree renumerative to capitalists, and to our whole people. It is of vast national importance commercially, politically and evangelically.

☞ The stock of this Company has been unqualifiedly recommended to capitalists and business men, as a desirable investment by editorial articles in the New York *Herald, Tribune, World, Times, Post, Express, Independent*, and in the Philadelphia *North American, Press, Ledger, Inquirer, Age, Bulletin* and *Telegraph*.

Shares of this company, to a limited number, may be obtained at $50 each, $10 payable down, $15 on the 1st of November, and $25 payable in monthly instalments of $2.50 each, commencing December 1, 1868, on application to

YOU ALL
HAVE HEARD OF
HOOFLAND'S GERMAN BITTERS,
AND
HOOFLAND'S GERMAN TONIC.

Prepared by Dr. C. M. Jackson, Philadelphia. Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR
FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern-preparation, or any thing like one, but good, honest, reliable medicines. They are

The greatest known remedies for
Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,
and all Diseases arising from a Disordered Liver, stomach, or
IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate diseases of the Liver or Digestive Organs, combined with impure blood.

HOOFLAND'S GERMAN BITTERS

is entirely vegetable and contains no liquor. It is a compound of Fluid Extracts, The Roots, Herbs, and Barks from which these extracts are made, are gathered in Germany. All the medicinal virtues are extracted from them by a scientific Chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

HOOFLAND'S GERMAN TONIC

is a combination of all the ingredients of the Bitters, with PURE Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in case where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These remedies are the best
Blood Purifiers

ever known and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order, keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no diseases will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything, you must try these preparations.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, March 16, 1867.

I find that "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action in the system.

Yours Truly,
GEO. W. WOODWARD.

FROM HON. JAMES TAOMPSON.

Judge of the Supreme Court of Pennsylvania.

PHILADELPHIA, April 28, 1866.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,
JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined, but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes. Yours, very respectfully,
J. H. KENNARD,
Eighth, below Coates Street.

CAUTION.

Hoofland's German Remedies are counterfeited. The Genuine have the signature of C. M. JACKSON on the front of the outside wrapper of each bottle, and the name of the article blown in each bottle. All others are counterfeit.

CHAPTER ON CATS.

On cats I don't go very heavy. Not so much on account of their staying out late nites, dispensing mournful lirrics, as the habit they have of going intew fits, and playing Mazeppa on the ceiling.

It's a very pecoolar trait of the cat, them fits. They don't seem to mind them much, and alluz recover. I give my old Malty cat fits a while ago, but she didn't recover. Not herself.

I recovered her.

I will let you into the facts of the case. I hung her by the neck one day and one half on an improved gallus, and then covered her over with dirt.

But I hed only hung eight lives out of her, and I found her next morning at the kitchen door, waiting for her rations. I strateway took her remaining life. She is now one of the things that wert. The feelin quire have lost a powerful tenor, and her voice is silent perpetual.

When cats are first born they are seeless. A great many go in swimmin the first thing they do after being born, in an old bag as a bathing-habit, with a big rock tied to it—rocked in the cradle of the deep as it wer.

Cats are mentioned by poets, as will be observed by the following cotation:

Hi diddle diddle,
The cat's in the fidfile, & so 4th.

Cats live on mackril heads, cold pioces, young birds, & so 4th. If hard up for a lunch they catch a mous. They are fond of laying under a warm stove. Give a cat fourteen fish heads for dinner, and then let her stretch herself under a hot stove, and you have a picture of unalloyed bliss.

They are not ov a very loving disposition, and when in trouble are not very kind to each other. In proof of this hang two of them bi their tails over a klose line.

I guess I don't know anything more about cats at present. That iz to say, my essa iz over.

N. B.—Cats don't cost anything.

THE other day a man in Montgomery, Ala., in biting an oyster, found his mouth full of pearls. Over for y some larger than a pea, were within the one shell.

THOSE people who have always viewed with anxiety and alarm the accession of military men to high civil offices may well be startled as they witness the proceedings of the military regime which now has its headquarters in the White House. An ambitious General is our President. The Secretary of War is a General, and the Secretary of the Navy, in point of fact, is Admiral Porter. The President's Secretaries append to their signatures the titles of Brigadier General or Colonel. Almost the first act of the new Administration was to make certain changes in the "military districts," and our Washington advices show, day after day, how completely military affairs absorb its attention.

Regiments are being consolidated and regulations about discipline and uniforms in the navy are being issued thus early, as though these things were of the first importance. The President has for years past had a body-guard, and the citizens of the Capital are as familiar as are those of St. Petersburg with the jingle of spurs and the clank of sabres. Does all this signify nothing? Does the difference between Washington as it is and Wasington as it was ten years ago indicate only a change of fashion and habit, or does it mark the decline of constitutional government and the decadence of republican institutions? When the Long Parliament set aside the ancient Constitution of England, who supposed that Cromwell would soon be her absolute lord and master? When the National Assembly overturned the throne of France, who imagined that creatures like Marat and Robespierre would soon rule over her and shed the blood of her best and noblest like water? Greece had her despots in her time, and Rome when mistress of the world was the slave of tyrants. Why should we expect immunity from the fate of all the free nations that have preceded us in the past three thousand years? Why should there not be ten "military districts" here as well as five? Public virtues and sleepless vigilance are all that can save this nation from losing all that is left of the Government bequeathed us by our ancestors, and that virtue and vigilance as yet are lying dormant.—*Balt. AN OUTRAGEOUS INSULT TO OUR COLORED SOLDIERS,

From the Boston Courier.

We are informed by the daily press that "the Indians of the plains will not take scalps from the heads of negro soldiers killed in battle."

Is not this a flagrant violation of the spirit of the civil rights bill, of the new amendments to the Constitution, and of the reconstruction policy of Congress?

This is the crowning insult to our colored citizens.

Shall the red skins be allowed thus to make distinctions on account of race or color?

When the colored troops fight bravely, may those untaxed Indians scorn their scalps, as being no trophy worth the taking off?

This contemptuous treatment of the black man by the red man is not to be borne.

Senator Sumner must attend to this. He must prepare resolutions.

He must fulminate speeches against the noble red man of the forest, who, when on the war path, dares to show a savage disrespect to wool!

He has abolished the word "white" in the District of Columbia, let him abolish the word "black" on the plains.

Let him cause it to be enacted that when the untaxed red-skin says—

"Ugh, big Indian no scalp nigger!" somebody shall shoot him on the spot.

It is not because of the difficulty of taking off the colored man's scalp.

No such thing.

Indians scalp very short haired white soldiers.

It is their contempt for the negro as an inferior race.

They must be taught better.

Here is missionary work to do.

And a new stipulation should be made in all Indian treaties, that no distinction of race or color shall be made with the scalping knife.

The insult is too cutting.

A celebrated author once wrote: "A French woman will love her husband if he is either witty or chivalrous, a German woman if he is constant and faithful, a Dutch woman if he does not disturb her ease and comfort too much; a Spanish woman if he wreaks terrible vengeance on those who fall under her displeasure; an Italian woman if he is dreamy and poetical, a Danish woman if he thinks her native country the fairest and happiest on earth, a Russian woman if he holds all westerners to be miserable barbarians; an English woman if he is of the nobility, an American woman if—he has plenty of money.

IN order to amuse the children on a Sabbath, a lady was engaged in reading from the Bible the story of David and Golilah, and coming to that passage in which Golilah boastingly and defiantly dared the young stripling, a little chap, almost in his first trousers, said: "Sister skip that, skip that; he's blowing! I want to know who licked!"

AN exchange paper has the following: "It is said that there are more editors unmarrried than any other class of professional men." For the reason, we suppose that the majority of them are men of fine sentiment, and do not wish to starve anybody's sister.

Composts made now will heat and be in good order for the corn crop. Muck got out in the winter will be in good condition to be thus used, mixed with ¼ or ½ its bulk of barnyard manure.

There are 38,000 Mormons and 8,000 Gentiles at Salt Lake.

An excellent Fertilizer.—The Journal of Chemistry says that one of the very best fertilizers used upon the farm for all the cereal grains and root crops, may be made in the following manner: Take one barrel of pure, finely ground bone, and mix it with a barrel of wood ashes; during the mixing add about three pails full of water. The heap may be made upon the floor of an outbuilding, or upon the barn floor; and by the use of a hoe the bone and ashes must be thoroughly blended together. The water added is just sufficient to liberate the caustic alkalies, potash and soda; and those act upon the gelatine of the bone, dissolving the little atoms forming a kind of soap, and fitting it for plant aliment. In this way the most valuable constituents of the bone can be made immediately available, and the addition of potash and soda aids in the formation of a fertilizer of inestimable value. A gill of this mixture placed in a hill of corn, will work wonders. It is also excellent for garden vegetables and for all kind of roots. It will be ready for use in a week after it is made.

Stray Grains for Chickens.—Feed your poultry on raw onions chopped fine, mixed with other food about twice a week. It is better than a dozen cures for chicken cholera. Fowls exposed to dampness are apt to be troubled with catarrh, which will run to croup, if not attended to. Red pepper mixed with soft feed, fed several times a week will remove the cold. Pulverized charcoal, given occasionally, is a preventive of putrid affections, to which fowls are very subject. Setting hens can be cured by putting water in a vessel to the depth of one inch, putting the hen into it, and covering the top of the vessel for about twenty-four hours. The vessel should be deep enough to allow the fowl to stand up. This is the best remedy I have ever tried. Pulverized chalk administered with soft feed will cure diarrhœa. This disorder is caused by want of variety in the food, or by too much green food. Garlic fed once or twice a week, is excellent for colds.—*English Paper.*

Experiment in Feeding Cows.—In the correspondence of the *Ohio Farmer* occurs the following: "I have had twenty-five cows to milk, and found timothy and wild grass the best. To feed in winter, use shorts, ground oats, shorts and corn meal; oats ground do better than either; but corn meal with shorts makes richer milk, but no more of it. I have fed potatoes largely; they do tolerably well, but milk a day or two old gets strong. Ruta-baga turnips and carots would not do for me to make butter from the milk; but of all the roots I ever tried, sugar beet is the best. I heard pumpkins were good to make milk and tried them. I had twelve milkers; I divided them; fed six with pumpkins three weeks, and all run on grass alike. Those that had pumpkins gave not a gill more milk than the others, but I believe it was a little richer."

A Thousand Dollar Receipt.—Take one pound of sal-soda and a half a pound of unslacked slime, put them in a gallon of water, and boil twenty minutes; let it stand till cool, then drain off and put in a stone jug or jar. Soak your dirty clothes over night or till they are well wet through, then wring them out and put on plenty of soap; and to a boiler of clothes well covered with water add one tablespoonful of washing fluid. Boil half an hour briskly, then wash them thoroughly through one suds and rinse well in water, and your clothes will look better than the old way of washing twice before boiling. This is an invaluable remedy, and we want every poor, tired woman to try it.

Soil for the Grape.—It is a curious fact that very rich and highly manured land has rarely produced a grape that would yield a high quality of wine. The grape that contains the most saccharine matter will make the best wine, and the different varieties differ widely in the proportion of sugar. In Italy and in Sicily the very finest and sweetest grapes grow on loose, rocky soils, or along hill sides covered with rocks are often the best. These facts ought to teach us not to select the richest soils, and not to stuff them with organic manures, for the grape.

Horses are often injured by their exertions to draw heavy wagons out of of miry spots in the road. Spavins are frequently caused in this way. After such exersion, the horses' legs ought to be hand rubbed for an hour a day, for several days. This is a gentle friction of the hand up and down the legs. Coarse horses seldom require it, but high-bred ones are benefitted by the operation.

To relieve from the terrible effects of running a nail in the foot of a man or horse, take peach leaves and apply them to the wound, confined with a bandage, and the cure is as if by magic. A renewel of the application generally does the work. This remedy has cured both man and horse in a few hours, when they were apparently on the point of having lockjaw.

A clergyman in Vermont, being apprehensive that the accumulated weight of the snow upon the roof of his barn might do some damage, resolved to shovel it off. He therefore ascended the roof, having first taken the precaution to fasten his waist to one end of a rope, the other end

THE WORD "WHITE."

The Convention of 1838, which formed the present Constitution of Pennsylvania, numbered among its members the Hon. J. M. Russell, and Jacob Barndollar and A. J. Cline, Esqs., as delegates from Bedford county. These gentlemen were prominent members of the Whig party and were elected to the Convention in opposition to the Democratic candidates. It will, perhaps, be interesting to the present generation to learn how these old Whigs voted upon the question of suffrage, which was fully discussed and deliberately settled by this Convention.

On page 106, vol. 10 of the Proceedings and Debates of the Convention, is recorded the vote upon that article of the Constitution which confines the right of suffrage to white male citizens above the age of twenty-one years. The yeas upon the proposition were 77, the nays 45. Among the YEAS are recorded the names of RUSSELL, BARNDOLLAR and CLINE.

These three Whig representatives of Bedford county in the Convention of 1838, voted to insert the word WHITE in the Constitution, or, in other words, to confine the right of Suffrage to the White People of the State. Besides, this Convention contained a Whig majority, was presided over by a Whig and controlled by Whigs. But, now, Mr. STUTZMAN, Mr. LONGENECKER and Mr. WELLER propose to strike out of the Constitution what Messrs. Russell, Barndollar and Cline inserted in it. The latter submitted their work to the people, not daring to call it finished until it had passed the test of the ballot. But Stutzman, Longenecker and Weller, though sworn to support the Constitution which Russell, Barndollar and Cline assisted in framing, undertake to repeal that Constitution, without as much as saying to the people, by your leave. The "Republican" party, too, as a body, are trying to undo what was done by the Whig Convention of 1838. They are plotting and striving to strike out of our State Constitution the Whig word WHITE.

There are at least one thousand voters in this county who honestly believe that in voting the "Republican" ticket they are still carrying out "old Whig principles." This most singular hallucination will probably be dispelled from their minds when they find that the old Whig party deliberately excluded Negroes from the ballot-box, whilst the so-called "Republican" party is now exerting all its energies to force them up to it as voters. The Whig and Democratic parties were always in accord upon the Negro question. It is only the desperate leaders of the "Republican" party of to-day that are striving to make voters of the blacks. They want them as tools to do their dirty work for them. They want to use them as voting cattle in order to keep themselves in power. They mean no good to the black man. They desire to enfranchise him only in order to make of him a stepping stone to new heights of ambition and power. James M. Russell, Jacob Barndollar and A. J. Cline, the representatives of the old Whigs of Bedford county in the Convention of 1838, were above such artifice and trickery.

Men of Bedford county! You who are still proud to call yourselves descendants of Whig ancestors! Where do you stand? Are you with Stutzman and Longenecker and Weller? or do you still believe in the "Whig principles" of Russell, Barndollar and Cline?" Let your future political affiliations decide the question.

ONE of the "organs" of the Snap Judgment party in this county, says we declare that "it is not right to amend the Constitution." Of course this is a lie. To wholesome amendments, if any be needed, we have no objection. What we oppose, is, the *destruction* of the Constitution. This may be done under the guise of amendments, as well as by direct abrogation. The XVth Amendment is destructive of the Constitution, for it *takes from the people a right which the Constitution reserved to them, viz: to regulate and control the question of suffrage for themselves.* Suppose Congress would propose an amendment to the Constitution making Grant Emperor, and three fourths of the State legislatures would ratify it, would that be amending or destroying the Constitution? But what is the use "casting pearls before swine" or asking conundrums of a jack ass?

THE mulatto Lieut. Governor of Louisiana, DUNN, made his appearance, the other day, upon the floor of Congress, and was the recipient of the most obsequious attentions from the "Republican" members. It is said that John Cessna was so completely awe-struck by the commanding presence of his colored brother, that out of sheer reverence for him, he forbore his habitual picking and scratching for the space of just two minutes.

AT LAST.

Both of the organs of the so-called "Republican" party of this county, have declared in favor of the Negro Suffrage amendment to the Constitution. As it has been made a party measure by the "Republican" leaders, of course these subservient partizan sheets are bound to endorse it. To them it is not the XVth Amendment, but the XVth *Commandment* of their party. Nothing better than abject submission to this new decree of the "Republican" leaders, could be expected from such cowering, crawling slaves to power as the editors of these newspapers. Before last fall's election they did not dare to print a word in favor of Negro Suffrage. Why? Because they feared, if they did, their ticket would be damaged, and because the party leaders in Congress had not yet commanded their dogs throughout the country to bark. Now being in possession of a new lease of power, they impudently display the cloven foot and openly avow what they before studiously concealed and persistently denied. With such tools of party, it is not worth while to hold controversy. If conviction were forced upon them, by facts and logic the most irresistible, they would not dare to admit themselves in the wrong. Their bread and butter depend upon their adhesion to their party leaders, and bread and butter make them cowards and slaves. We only refer to their endorsement of the infamous XVth Amendment, in order to prove that what we always said they would do, they have now done. We call the attention of the masses of the "Republican" party to *this fact*, and now triumphantly claim that what we asserted, time and again, and what "Republicans" as persistently denied, *is true and verified*, viz: *that it was and is the purpose of the "Republican" leaders to force Negro Suffrage upon the people.*—With both houses of Congress, the President and the State Legislature, endorsing and recommending the scheme, and the "Republican" newspaper press sustaining it, there can be no longer any doubt upon the subject. Let honest men act accordingly.

SAYS one of the "organs" of the Snap Judgment Negro Suffrage-ites: "God made of one blood all nations to dwell together on the face of the earth," and "All men are created free and equal." Well, then, why don't you advise Grant to recall Custer and Sheridan and the rest of the Indian-butchers, and let the Red Man, as well as the Black, "dwell" with you "on the face of the earth?" And what about the Chinaman, who can be sworn to tell the truth only by bleeding a living chicken-cock in his presence? Is he of your blood, too, blatherskite? Nay, to come back to the race upon which you are a libel, how about young men eighteen, nineteen and twenty years of age? They are created free and are equal at least to such fools as scribble in favor of Negro Suffrage. Why don't you burst yourself a little a howling for the rights of these "men and brethren"? God, doubtless, made every body, white, black, yellow, red, of "one blood," but He divided them into races and diluted the blood of which some of them were made by substances that produce thick skulls and very little brain. By a proper classification the writer in the "organ" would belong to the race or class just described.

"On the gloom of more than thirty years of night, the light of a better day has dawned, and Pennsylvania has redeemed the bright record of her earlier days. May she take no backward step. The Republican Legislature of 1869 has wiped out the stain of the Convention of 1836."—*Bedford Inquirer.*

Such is a portion of the editorial remarks of the *Inquirer* upon the ratification of the infamous XVth Amendment by the State Legislature. So it seems that those old Whigs, J. M. Russell, Jacob Barndollar and A. J. Cline, who voted in the Convention of 1838 (not 1836 as the bungler of the *Inquirer* has it) to confine the right of suffrage to the White race, were guilty of causing a "night," which had a "gloom," that overspread the State for thirty years! How wicked they must have been! But it is very strange that it required just thirty years for the Bedford *Inquirer* to discover the "night" and "gloom" produced by the votes of Russell, Barndollar and Cline.

THE legislature of Missouri wanted to be a notch ahead of all loyal States, and passed what was thought to be the XVth amendment on the receipt of a telegraphic dispatch. The operator forgot to send the whole of the amendment, and the whole thing falls to the ground. The legislature adjourned *sine die*, so the whole matter goes over till next year, when it is thought there may be something more to say about it. In the meantime let us have peace.

THE "Republican" papers are just now very much afraid of what they style "copperhead howls about the XVth Amendment." The guilty conscience would fain be quiet. Verily, "the wicked flee when no man pursueth."

SOME of the Snap Judgment organs say that the legislature could not submit the XVth Amendment to a vote of the people. This is not true. But if it were, the legislature could have postponed action upon it until next winter, which would have enabled the people to express their will in regard to it, in the election of Senators and Representatives.

THE appointment of the ex-rebel LONGSTREET, by Gen. Grant, to be Collector of one of the districts of Louisiana, has been confirmed by the "Republican" Senate. The office is worth $30,000 per annum. Now, let "Republican" blatherskites shut their mouths in regard to "restoring rebels to power."

WHOA! TINKLE-INKLE-INKLE!—New stables are being erected at the White House for the accommodation of Grant's horses and a magnificent new piano forte has been placed in the White House parlors for the delectation of the asses that congregate there. Whoa! Tinkle-inkle-inkle!

SINCE the "Republican" members of the Legislature refused to let the people decide upon the question of Negro Suffrage, but took the matter in their own hands, they are called the "Snap Judgment Party."

PHILADELPHIA.

[Correspondence of the Bedford Gazette.]

PHIL'A., March 31, 1869.

Rarely do we see Easter dawn so bright and warm as it did here. A natural consequence was that the churches, street cars and pavements were crowded. Every body was out, and saint and sinner observed Sunday fully in a way peculiar to each. The evening drew on with a cloudy sky and Monday set in with the old fashioned rain and storm. Good Friday was observed with sacramental services and appropriate ceremonies by the Catholic, Episcopal and the Lutheran churches belonging to the General Council. As the Lenten Season has closed, places of amusement will take a fresh start. We are pleased to say that Good Friday was also respected by many business places closing, as *all ought* to do; and we cherish the hope that the day is not distant when it will be made a legal holiday all over our country. Church festival seasons are certainly as important as the birth days of some of our statesmen.

WHAT WILL YOU DO WITH THEM?

Politics must be thriving on your side up there: for the GAZETTE presents quite an army looking toward office. Now those names are all worthy and solid, but not more than one for each office will, on nomination day, be able to say, "A fine day gentlemen, splendid!" but the rest won't see it on that side by a good deal, and think it exceedingly disagreeable. We heard of a nominee once, who after an electioneering tour settled himself down by count on being elected *just exactly*. When the election was over he was five hundred votes short. On being interrogated as to his defeat, he said that he would have been elected, but he found out after the election that there were *five hundred liars* in the district—*just exactly!* Now, the moral is pointed. If everybody is going to "do something" for every candidate, a very broad conclusion will be drawn after the nomination. Let every tub stand on its own legs. (That's the quotation, ain't it?) At any rate, those who are not successful understand political philosophy sufficiently well to be able to say, "It's all right," even while they think it would have been quite as right if it had taken a slightly different turn. "According to my notion," is every man's rule of right. Other people's take a different direction sometimes.

BIRDS.

Since our last we have seen an article on taking care of Birds which is in accordance with the views we then gave, and which we should love to see entire in every paper. Whatever may be the faults of your correspondent in other respects, he has a pleasing consciousness, in his old days, of never having robbed a bird's nest of any kind, nor taken a single life of a bird for the *sport* of it. And now as the "time for the singing of birds has come," a fresh interest exercises our mind in their behalf. This, we hope, will become general, not alone on account of their innocence and beauty, but also for their economic value. Especially should all those in agricultural communities turn their attention in this direction, and seek to put an end to the indiscriminate destruction of these little creatures which are the very best friends the farmers have—except their wives. We cannot, therefore, forbear giving you a short extract, as the writer of the article speaks by the book. And if it be true of a single bird, what must be the aggregate estimate of the many thousand species?

The robin is generally regarded as the pest of fruit growers, and he certainly does plunder to a large extent the smaller fruits, but it has been demonstrated by a careful examination of the contents of his stomach that during six or seven of the months in which he is in this region he is exclusively a benefactor. During the early spring months insects in different stages of development form his sole food. The larvæ of two hundred insects of a most destructive class have been taken from the stomach of a single robin.

It has been proved that a young robin will consume forty-one per cent. of animal food more than his own weight in twelve hours, and this food usually consists of earth worms, cut worms, and other destructive insects.

"The measure worm" or "span worm," it is said has been driven from the Central Park by the English sparrow, recently introduced there, a pair of which will destroy four thousand caterpillars weekly.

Researches show that every species of bird has its particular use in the destruction of the injurious insects and vermin, which constitute the greater part of their food. Birds are in general far more useful than hurtful, and the popular desire should be to take care of, instead of exterminating these beautiful little allies of the farmer and fruit grower.

BRIEF MENTION.

Another mysterious murder occurred last week. No clue whatever yet, although the strictest investigation has been instituted. The name of the murdered man is Jos. W. Smith, single, and 22. Independence Hall has been refitted and painted. The Germania is to go on a musical trip to Pittsburg. West Philadelphia has an elegant new market house. The spring trade is opening up, and hotels filling. Eggs went down—on Easter Sunday. White lace sacques are to be the rage. Large finger-rings are the vogue. Little bonnets and big prices the style. Everything is the fashion. Hoops are not. But sugar *is* sugar. Ever, LINDEN.

A COMMUNITY WITHOUT LAW.—We gave some account a few days since, from a Petersburg, (Va.) paper, of a father (Mr. A. B. Bradshaw, of Luenberg) killing his son, a young man twenty-five years of age, by shooting him, as the son left the house, on account of some dispute at the breakfast table. It was added that no arrest had been made, as, on account of the recent removals under congressional law, there was no officer in the country authorized to make an arrest. General Stoneman, the military commander, was telegraphed to in regard to the course to be pursued, or to appoint some one to act under the law. His reply was as follows:

"RICHMOND, Va., March 25, 1869.—To P. M. Hatchell: The people must act as they may think the circumstances demand."

"GEORGE STONEMAN,
"Brevet Major General."

Thus it is that reconstruction has brought the people of a portion of the Old Dominion clean back to the state of nature. Now if Gen. Stoneman could only give the people of all Virginia the permission he has extended to those of Luenburg—to act towards all wrongdoers "as they may think the circumstances demand"—there would be about as refreshing an exhibition of retributive justice, untrammeled by legal technicalities and delays, as the world has ever seen.

What a reflection is suggested by this order of General Stoneman! In this nineteenth century, in the land which claims to be the most civilized, in the State on which the seeds of civilization in the western world were first planted, and among a most law-respecting people, the legislation of Congress has stripped the people of the means of punishing the most horrible of crimes; and the amazed and confounded inhabitants, not knowing what to do, appeal to the military commander, who can only tell them, in substance, they must do that which is right in their own eyes—that which they would do if there never had been such a thing as law or human society! Happily there is reason to believe the people of Virginia may be trusted to do the best that is possible under such circumstances, but no people ought to be subjected to such a trial.—*Balt. Sun.*

A Man Butchers his Wife and Children and then Drowns Himself.

A horrible murder was commited, in Philadelphia, on Tuesday of last week, under peculiar circumstances. Early in the morning a man threw himself into the Delaware river and was drowned. Subsequently a handkerchief was found in the water bearing the name of Blackstone. In the afternoon the body was recovered, and found to be that of Blackstone, of the firm of Funston & Blackstone, picture-frame makers at 912 Market street.

The body was sent to his house in the extreme northwestern part of the city. On arriving there the parties found another party of police in posession, and that Blackstone's wife and two small children were dead, chopped to pieces with an axe. It appears that previous to committing the murder, Blackstone wrote a letter to his wife's father in Connecticut, saying that he had killed his wife and children and would kill himself. The party in Connecticut telegraphed to the police authorities here who went to the house and found the dead bodies as before related, and were investigating the case when the dead body of the father was brought in.

On Blackstone's body was found a paper stating that he had been robbed and was a ruined man, and giving this as a reason for the deed. His wife appears to have been killed while lighting a fire in the stove, as the neighbors heard a noise at that time. The children were killed in bed up stairs and carried down and laid at the feet of their mother. Blackstone was probably insane.

NATURALIZATION.—The New York Sun, a republican journal, cordially confesses, in regard to naturalization frauds, that "in this respect one party is as bad as another," and that if more of this cheating was done by the democracy in New York last fall than by the Grant men, it was "simply because the foreigners were more inclined to go for Seymour and Blair. Had they been for Grant and Colfax, the republicans would have put them through the mill just as fast. When we say this we don't mean the honest republicans: neither do we suppose the honest democrats had anything to do with the fraudulent naturalizations that were practiced so extensively in the interest of their party." This is the truth, fairly spoken. The remedy, in the opinion of the Sun, is to prevent the frauds by removing the occasion. Fix a shorter term for residence previous to naturalization. The general diffusion of newspapers enables the emigrant now to learn as much of our institutions and laws in one year as he formerly could in five.

In Georgia there are in process of erection seventy-two mills for the production of cotton and woolen goods alone, and attention is turned in the direction of calicoes and printed fabrics. This is a surprising fact; but it is the natural consequence following on the events of the last five years. At Augusta one factory has turned out the last year 6,410,000 yards of cloth, and has a capital of $200,000.

Sixty-three vessels are now on the voyage from San Francisco to Great Britain, their cargoes aggregating one million seven hundred thousand sacks of wheat; eight vessels are *en route* for domestic ports with one hundred and sixty-six thousand sacks of wheat, and ten vessels for Rio de Janeiro with fifty-one thousand barrels of flour.—The value of California wheat and flour now afloat for China and other countries is four millions of dollars.

Reader, this is the last issue in the old GAZETTE office.

Patrons, the next issue of this paper will be from the new GAZETTE BUILDING, on Juliana street.

Cumberland claims a population of 15,000.

Go to Crouse's for a mixture to keep moths out of woolen goods. It does not soil them.

The events of to-day have more interest than those of yesterday. For this reason men are fast giving up books for newspapers.

The *Times*, of Cumberland, says that it is expected that the whole of the Pittsburg & Connellsville Railroad will be completed the coming summer.

On last Saturday the Free Masons sold their house and lot, on the corner of Pitt and Richard streets, to William Hartley, Esq., for $3,151.

John M. Buchanan, Esq., well known to many of our readers, has been appointed Chief Judge of the Orphan's Court of Allegheny county, Md., vice Hamill elected to Congress.

A. L. Defibaugh has moved his store to Mann's corner. The building he occupied is being razeed to make way for a splendid three-story building to be erected this season by J. M. Shoemaker.

H. F. IRVINE has just received, at the *Regulator Store*, another fine assortment of queensware and glassware, also a fine assortment of boots and shoes, groceries, notions, &c. Everybody buys from the Regulator.

Our Cumberland neighbors say that as soon as the weather permits the preparatory work towards the construction of the rolling mill, by the Baltimore and Ohio Railroad, will be commenced.

Two of the typos of the Somerset *Democrat* office got on a "high," one day last week, armed themselves with guns and struck for the woods in search of game, *a la* Nimrod. They were promptly dismissed by the editor. Served them right.

The graduation, masonry and ballasting of the remaining 47 sections of the Pittsburg & Connellsville Railroad, situated at intervals upon the 90 miles between Connellsville and Cumberland, will be let on the 1st of May next.

NEW HARDWARE STORE.—John F. Blymyer has opened a hardware store in Blymyer's Row, next door to G. R. Oster & Co.'s store. John is a clever young man and deserves a share of public patronage.

HORSES STOLEN.—A raid of horse theives was made on McConnellsburg and vicinity, one day last week.—Three valuable horses were captured, two of which have since been recovered. The theives made good their escape with the other one.

D. W. CROUSE has the largest assortment of tobacco and cigars ever offered to the people of Bedford county to make selections from, and as for quality and price are unsurpassed.—We therefore advise our readers to give Dan a call and try *the weed*.

WAINRIGHT & Co.—The attention of our mercantile friends is called to the card of Wainright & Co., Wholesale Grocers and Tea Dealers, corner Second and Arch streets, Philadelphia. They are first rate fellows and first class merchants.

Henry Crawley has removed his tonsorial establishment to the room formerly occupied by Dr. Marbourg, on Juliana street, directly opposite the Post-office. Shampooning, hair dressing, shaving, &c., done in a manner that will give satisfaction to all.

EDITORIAL CHANGE.—John R. Donehoo, Esq., who for four years, has so ably edited the Fulton *Democrat*, has retired from that paper, and Smith M. Robinson, Esq., has assumed the management thereof. Our ☞ to both of you, gentlemen.

Smokers and chewers should make it their business to buy cigars by the hundred and tobacco by the pound at Crouse's "Resort," Carn's Row, it being the only exclusive tobacco and cigar emporium in Bedford. By so doing, you can buy cheaper and better than anywhere else. Dan trys to please.

POOR PAVEMENTS.—There is a number of pavements in this place that need reconstruction badly. There is one east of Bedford street, which is in such miserable condition that it should at once be abated as a nuisance. After a rain it is almost impassable. Will property holders take the hint, or shall the matter be looked after by the borough authorities? We shall see.

The first number of the "Mountain City Times," published at Cumberland, has reached us. The copy before us is a fine specimen of typographical skill, and the original matter evinces considerable editorial ability. In politics, the *Times* is sound to the core, being thoroughly Democratic. We wish the proprietors unlimited success in their new enterprise.

Hoffman of the Somerset *Democrat* advertises for a "good smart boy" to learn the art of printing. He says, "Boys that smoke, swear or spend their evenings on the street, need not apply." We are afraid that he will have some trouble to get one to suit him. Unfortunately for the good of society, boys are not considered "smart" these degenerate days without the above "accomplishments."

Huntingdon has gone wild over the velocipede. Mercenary merchants, big-bellied bankers, audacious attorneys, generous gentlemen and chivalrous clerks, as well as fancy young men, are exhibiting their sprawling powers at National Hall. The mania has reached the editors, too. The *Monitor* proposes to secure a velocipede, get astraddle and skedaddle after its delinquent subscribers, even at the risk of having its mangled editorial self buried at the expense of the county. Poor fellow!

RESIGNED.—The resignation of Hon. William McSherry, as Revenue Assessor of the 16th District of Pennsylvania, was accepted by the President of the United States on the 23d of March. Mr. McSherry is one of the most correct and faithful officers in the State, and his services will be missed.

It is generally understood that Edward Scull, of Somerset, will succeed him. "Somerset was to do a big thing for Cessna at the election, and then Cessna was to give Somerset the Assessorship," is the way in which the supposed bargain is sometimes stated.

One day last week we dropped into the mammoth store of J. B. Williams, Bloody Run, and were surprised to see how busy the enterprising proprietor and his gentlemanly clerks were kept selling goods to cash customers. Mr. Williams adopted the cash system on the 1st of April, and the thing appears to work like a charm. People *will* buy for *cash* what they need, especially when they can get it for 20 per cent less than under the slow and circuitous method of long credits. It is really astonishing to note how cheap Williams is selling goods, and we are surprised that both merchants and customers are not everywhere in favor of the cash system.

THE WEATHER.—The weather has been April-fooling everybody completely.

Instead of Spring, with her genial influences on everybody and everything, old Boreas pays us a visit every few days. This is attributed, by many, to the fact that the ground-hog made a mistake this year.

The ground-hog has proved himself a poor prognosticator of the weather.

He is a mendacious cuss—an unreliable underground weather-cock.

He's too slow for this age.

Even the weather itself gets ahead of him, while the Hagerstown Almanac beats him two to one.

He had better emigrate to Alaska at once, *via* Boher's Landing.

But Spring like Christmas, is "coming to come" if we have patience to wait. We must wait.

The buds are beginning to swell and the trees are filling their *trunks* with sap and getting ready to *leave*.

After which "the spring time will come, gentle Annie!"

QUITE HAPPY.—The editor of the *Inquirer* seems to be over-joyed at the fact that he is to be our near neighbor. If our propinquity to the *Inquirer* will make it a decent newspaper, or improve its editor's "character for truth and veracity," we shall be highly gratified. There is only a brick wall between the GAZETTE BULDING and the rooms occupied by the *Inquirer*, but we remember "draft" times and are not afeared. By the way, we do think that we have now the prettiest printing office to be found in any county town in the state. Mr. Spang deserves great credit for his enterprise in erecting so beautiful, substantial and useful a structure as the GAZETTE BUILDING. Mr. Lutz of the *Inquirer* merits praise for trying to keep pace with us, and has erected a very fine house in which he will keep his bookstore, printing office and parts of which he will rent out. But for eligibility of site, handsomeness of construction, convenience of arrangement, and above all, *light*, the GAZETTE BUILDING is incomparable. Nevertheless, we are not so proud of our new office, that we cannot fully appreciate the joy which Mr. Lutz seems to feel in becoming our close neighbor.

THE PITTSBURG AND CONNELLSVILLE RAILROAD.—During the past winter several of the contracts on this road were thrown up by the parties who had undertaken them, they averring that they had already lost large sums, and would lose more should they continue the work. This of course checked the progress of the work somewhat. Last fall forty three sections were let, and forty-seven remained unlet, between Cumberland and Connellsville, a distance of ninety miles. Those sections which were let at that time comprised the heaviest work on the line of road. The company have now, says the Cumberland Civilian, determined to put the entire work under contract; let all the sections which have not been heretofore bid for, as well as to relet those which have been thrown up during the winter. The specifications will be ready for distribution at their office by the 9th instant. The work will be put in hands at once, and the officers of the company will make every effort to have the road opened and cars running between Pittsburg and Cumberland by the fall of 1870.

TWENTY FIVE DOLLARS FINE FOR KILLING A SMALL BIRD.—By an act of the General Assembly of Pennsylvania, approved the 31st of March, A. D. 1869, a penalty of *twenty-five dollars* is imposed for the killing of any insectivorus bird; one half of this fine to be paid to the informer. Here is an opportunity to make twelve dollars and a half, and render the community effective service. There is no practice so inhuman as the killing of the pretty little songsters that warble beneath our windows and gladden our hearts. It is the duty of every good citizen to prevent their destruction; and this can only be done by prosecuting those who violate the law. The birds that are classed under the head of insectivorous birds are robins, martins, swallows, blue-birds, woodpeckers &c., &c., in fact all the various small birds generally seen in this latitude.

CLOSE OF THE ST. CLAIRSVILLE SCHOOL.—The winter session of the St. Clairsville school, under the management of S. W. Keyser, closed on Friday March 26, and we cannot permit the opportunity to pass, without expressing our conviction that the school has proved a decided success. The session was closed with an "Exhibition," which we must in nowise neglect to speak of. The closing exercises took place on the evening of the 26th., in the presence of a large number of ladies and gentlemen, patrons and directors.—After prayer by Rev. C. U. Heilman, the audience were favored with a song called, "Good Evening." This was followed by an address, subject, "Each a duty to perform," by Mr. S. W. Keyser, was ably written and well delivered. The exercises were then continued by quite a number of Essays, Select Readings, Declamations, and Dialogues. The audience were occasionally favored by a number of comic songs by G. W. Grove, which received much applause. The exercises throughout were a complete success. Mr. S. W. Keyser deserves great credit for his assiduous attention to the duties of his profession, and for the careful attention to the advancement of his pupils during the session. He, like all earnest teachers, has a desire to see the teacher elevated in his position, and not trampled under the feet by ignorance and vice.

The true motives, which should animate the teacher are a love of the profession for its own sake, a firm and unyielding devotion to the interests of the common schools and popular education, and a pure and unselfish desire to seek the highest good of those young minds he is to assume the responsibility of leading into the paths of knowledge and virtue. I hope that all teachers, who have this desire, will not cease until the profession of teaching is elevated to that high position, from which will emanate those influences, which are to lead future generations into the paths of Virtue and Knowledge.

WONDERFUL.—Henry W. Burr, No. 49 West 14th Street, while on a visit to the West, was attacked with severe illness from drinking impure water.—Life was despaired of, and it was thought that he must die. His wife was immediately sent for, and in a day or two was at his bedside. Having herself seen the beneficial results from the use of Plantation Bitters, she insisted upon their being administered to him, which was done, in quantities prescribed by the attending physician. The result was almost as if by magic, and in one-half hour from the time they were given her husband was out of danger, and by a moderate use of them three or four times a day, he was soon able to resume his journey to his home. This is but one case of many thousands that we know of.

OUR NEW FAMILY SEWING MACHINE.

The superior merits of the "Singer" Machines over all others, for either Family use or Manufacturing purposes, are so well established and so generally admitted, that an enumeration of their relative excellences is no longer considered necessary.

OUR NEW FAMILY MACHINE,

which has been brought to perfection regardless of time, labor, or expense, is now confidently presented to the public as incomparably the Best Sewing Machine in existence. The machine in question is Simple, Compact, Durable and Beautiful. It is quiet, light running, and

CAPABLE OF PERFORMING A RANGE AND VARIETY OF WORK

never before attempted upon a single Machine,—using either SILK, TWIST, LINEN OR COTTON THREAD, and sewing with equal facility the very finest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are Novel and Practical, and have been invented and adjusted especially for this Machine.

New designs of the Unique, Useful, and Popular Folding Tops and Cabinet Cases, peculiar to the Machines manufactured by this Company, have been prepared for enclosing the new Machine.

A faint idea, however, can at best be conveyed through the medium of a (necessarily) limited advertisement; and we therefore urge every person in quest of a Sewing Machine, by all means to examine and test, if they can possibly do so, all the leading rival Machines before making a purchase. A selection can then be made understandingly. Branches or agencies for supplying the "Singer" Machines will be found in nearly every city and town throughout the civilized world, where Machines will be cheerfully exhibited, and any information promptly furnished. NATURE'S GREAT RESTORER.

SCHEETZ'S

CELEBRATED

BITTER CORDIAL.

This medical preparation is now offered to the public as a reliable substitute for the many worthless compounds which now flood the market. It is purely vegetable, composed of various herbs, gathered from the great storehouse of nature, and selected with the utmost care. It is not recommended as a CURE ALL, but by its direct and salutary influence upon the Heart, Liver, Kidneys, Lungs, Stomach and Bowels, it acts both as a preventive and cure for many of the diseases to which those organs are subject. It is a reliable Family Medicine, and can be taken by either infant or adult with the same beneficial results It is a certain, prompt and speedy remedy for DIARRHŒA, DYSENTERY, BOWEL COMPLAINT, DYSPEPSIA, LOWNESS OF SPIRITS, FAINTINGS, SICK-HEADACHE, &c. For Chills and Fevers of all kinds, it is far better and safer than quinine, without any of its pernicious effects. It creates an appetite, proves a powerful digester of food, and will counteract the effects of liquor in a few minutes.

A CERTAIN CURE

AND

PREVENTIVE OF DISEASES.

The ZINGARI BITTERS are compounded from a prescription of the celebrated Egyptian physician DR. CHEOPSUS, who, after years of trial and experiment, discovered the Zingari Herb—the most remarkable vegetable production, the earth, perhaps, has ever yielded—certainly the most effective in the cure of disease. It, in combination with the other valuable properties of which the Zingari Bitters is composed, will cure

Dyspepsia, Fever and Ague, Bilious Fever, Cholic, Colds, Bronchitis, Consumption in its first stage, Flatulency, Nervous Debility, Female Complaints, Rheumatism, Dysentery, Acute and Chronic Diarrhœa, Cholera Morbus, Cholera, Typhoid and Typhus Fever, Yellow Fever, Scrofula, Diseases of the Kidneys, Habitual Costiveness &c., &c.

In the PREVENTION and CURE of the above diseases, it has never been known to fail, as thousands of our most prominent citizens throughout all parts of the country will testify. Let the afflicted send for circular containing testimonials and certificates of those who have been cured after their cases have been pronounced hopeless by our best physicians.

AYER'S

HAIR VIGOR,

FOR THE RENOVATION OF THE HAIR.

THE GREAT DESIDERATUM OF THE AGE.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

AYER'S CATHARTIC PILLS,

For all the purposes of a Laxative Medicine.

Perhaps no one Medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For DYSPEPSIA or INDIGESTION, LISTLESSNESS, LANGUOR and LOSS of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For LIVER COMPLAINT and its various symptoms, BILLIOUS HEADACHE, SICK HEADACHE, JAUNDICE or Green SICKNESS, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For DYSENTERY or DIARRHŒA, but one mild dose is generally required.

For RHEUMATISM, GOUT, GRAVEL, PALPITATION OF THE HEART, PAIN IN THE SIDE, BACK and LOINS, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For DROPSY and DROPSICAL SWELLINGS they should be taken in large and frequent doses to produce the effect of a drastic purge.

For SUPPRESSION a large dose should be taken as it produces the desired effect by sympathy.

As a DINNER PILL, take one or two pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these PILLS makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming advertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for many years,) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and first-class instrument. Stronger endorsement we could not give.—*Home Journal.* jan15,'69.

AYER'S SARSAPARILLA,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Ulcerous affections of the muscular and nervous systems.

Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhœa or Whites, Uterine Ulcerations and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.

Miscellaneous.

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometime subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

AYER'S AGUE CURE,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Billious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or traveling through miasmatic localities, will be protected by taking the AGUE CURE daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.
